

# Central Government Real Estate Agency

The Central Government Real Estate Agency is about more than just buildings and land. Together with our partners, we're working to create environments that are healthy and safe to live and work in. We are a unique organisation in terms of size and variety of assets. We use our buildings, land, knowledge and expertise to make the Netherlands sustainable.

## Our real estate portfolio

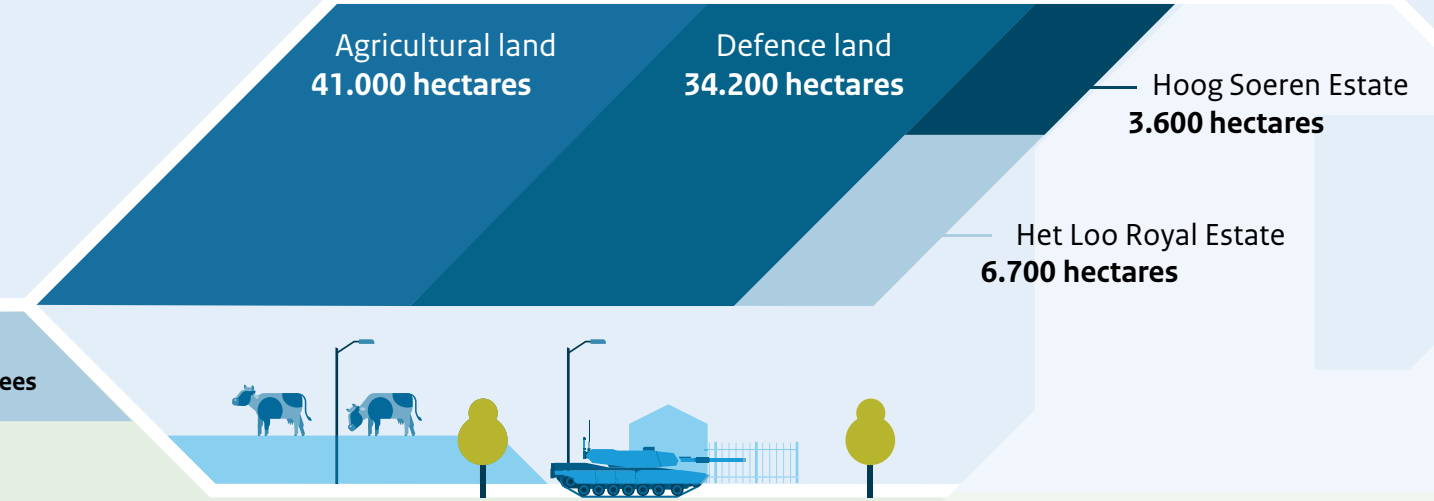

The buildings in the Agency's portfolio total almost 12 million square metres and are located throughout the Netherlands and the Caribbean.

Workplaces for 120.000 central government employees

## Land

We maintain and manage various types of land, from agricultural land to woodland

## Sustainable development

We are making sure that our portfolio is future proof.

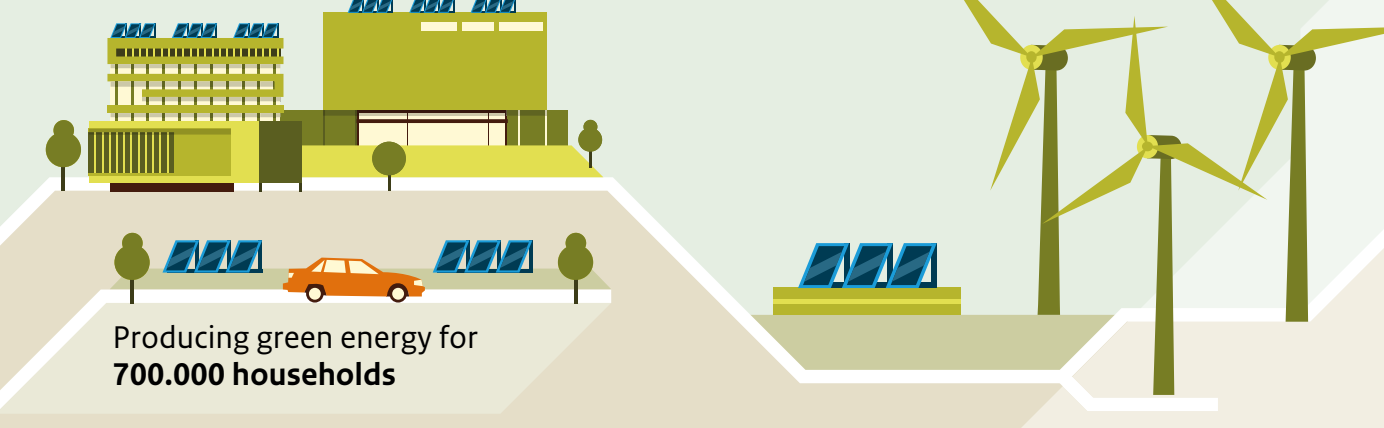

## Innovation

We're using innovations and pilots to help us find more sustainable ways of working.

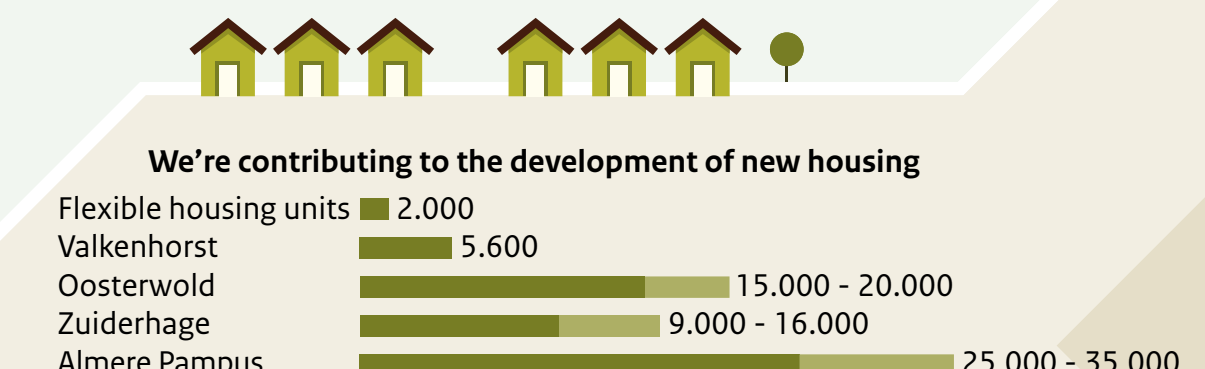

## Clean energy

We're facilitating the expansion and use of green sources of energy.

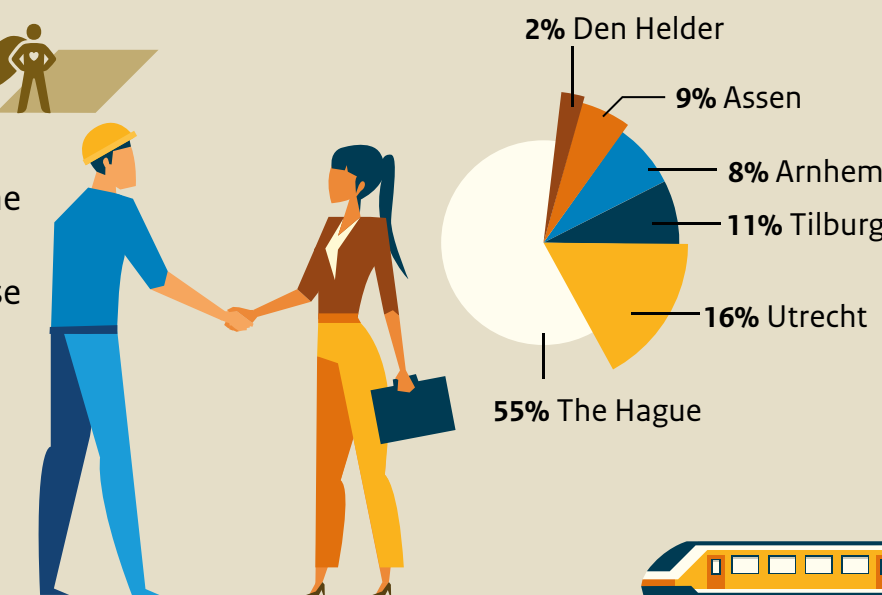

## For a better Netherlands

We're using our land and buildings for housing, accommodation for priority groups, clean energy, sustainable farming and new nature areas.

## Our people

Our 2,900 staff, based throughout the Netherlands, bring a high level of expertise and professionalism to the organisation.

## Cooperating with partners

We are the biggest contracting authority in the real estate sector, working together with our users and with businesses, market players and public authorities.

Each year the Agency awards around **1.6 billion euros** in contracts.

## Safety

work with partners who make safety their top priority. Just like us.
